**Subject:** Outline 'Framework' Initiative

Dear Kevin,

Please find below for your review an outline for the project/initiative. I hope it captures the input from you Arthur, Randal, Urs and Denise. I would propose to integrate any comments you might have and share it with Urs and Denise next week to get their confirmation in particular of the objectives, scope and deliverables.

I have included at the end a first rough outline of the elements (table) that we would need to cover. Any suggestion for modification is valued. I am aware that the regulatory references are outside of my expertise and therefore are likely to be incomplete or even incorrect. The entries are made just to show the proposed layout.

Until soon,  
Roger
